# 技术服务及质量保证

## Technical Service and Quality Assurance

- (一) 卖方向买方提供与标的物有关的全面的技术支持与服务，在买方承诺不妨碍卖方知识产权保护的前提下，卖方负责供应买方完整的技术资料。

The seller shall provide comprehensive technical support and services relating to the subject matter. The seller shall be responsible for supplying the complete technical information of the buyer without prejudice to the seller's intellectual property rights protection.

- (二) 在质量保证期内，在买方使用该标的物符合相应工艺设计要求的情况下，卖方对标的物的质量负有完全的责任，若因质量事故而对标的物的任何维修、更换、改造等全部活动予以免费，并尽全力缩短工作周期。

During the quality guarantee period, the buyer use the subject matter to meet the requirements of the corresponding process design case, the seller have full responsibility for the quality of the subject matter, if because of quality accident and to the subject matter of any repair, replacement, modification and so on all activities shall be free of charge, and try our best to shorten the working period.

- (三) 产品在正常使用状态下，产品质量保证在 12-24 个月。

The product is under normal use and the product quality is guaranteed to be 12 to 24 months.

- (四) 卖方有责任和义务回应买方提供的一切技术咨询而无需考量其时是否在质量保证期内。

The seller shall have the responsibility and obligation to respond to all technical inquiries provided by the buyer without considering whether the time is in the quality guarantee period.

## 保证值和检测方法考核

### Guarantee value and test method and assessment

- (一) 买方保证制造的标的物的各项指标参数及尺寸符合图纸等严格的技术要求内，并对此承担全部责任。The buyer guarantees that the parameters and dimensions of the items of the subject matter are in conformity with the strict technical requirements of the drawings, and shall bear full responsibility for this.
- (二) 所有关键部分的材料采购及制造环节必须分别取样检测，由不同的两人分别执行，对照检测结果，若有较大的异样，必须进行三次检测。严格控制原材料的各项化学元素在国家标准的范围内并负责建立完整的检测档案。All the key part of the material procurement and manufacturing must be sampling inspection, respectively, carried out by different respectively, contrast test results, if there is larger difference, must be tested for three times. Strict control of the chemical elements of raw materials in the national standard and responsible for the establishment of the complete test archives.
- (三) 重大的检测事项应由买卖双方共同参与，若有任何异常均需在买方许可的前提下方可予以代用，否则卖方应立即无条件重新生产。Major inspection matters shall be jointly attended by the seller and the seller. If any abnormality is required under the premises of the buyer's permission, the seller shall immediately re-produce the goods unconditionally.
- (四) 卖方必须具备与检测各项指标相对应的检测设备及手段，在严格遵守双方共同制定的检验大纲的前提下依步骤和程序，采用合乎国家相关标准、规范的检测方法进行检验验收。The seller shall have the inspection equipment and means corresponding to the detection of various indicators. In accordance with the procedures and procedures, the inspection and acceptance inspection shall be carried out in accordance with the relevant national standards and standards.
- (五) 检验工作贯穿整个生产制造的各个环节，并在完成制造即将交付买方前作最终的出厂检验。卖方将完整的检验档案及最终的出厂检验记录及结果随同标的物一起交付买方作为该合同不可分割之部分。Inspection shall be carried out throughout the whole production and manufacturing process, and the final delivery inspection shall be made before the completion of the manufacturing. The seller shall, together with the subject matter, deliver the complete inspection records and final factory inspection records and results to the buyer as an integral part of the contract.
- (六) 买方对标的物及其检验记录做最后的检测和审核，在 15 日内作出提出异议(若有)，否则视为检验合格。The buyer shall make a final inspection and examination of the subject matter and its inspection record, make an objection within 15 days (if any), or it shall be deemed to be qualified.

# 服务承诺

## Service Guarantee

售前服务/Pre-sale service:

1. 帮助您提供所需的技术支持及联轴器的选型;

Provide the required technical support and the type selection of the coupling.

2. 提供非标联轴器的设计方案;

Provide the designing scheme of non-standard coupling;

3. 现场为您量身订制, 满足您的个性化需求。

Customization to meet your individual requirements .

售后服务/after-sales service:

本公司产品“三包”一年。用户电函立即给予回复, 并在24小时内给予技术性解决方案建议。

We implement “three guarantees” for one year of our products. The user will reply immediately by e-mail and give technical solution suggestions within 24 hours.
